MISSION STATEMENT

The mission of DelMonico Dance is to enrich the lives of children through the art and expression of dance with an emphasis on proper technique. Students will be provided instruction in a safe and nurturing atmosphere that challenges them to strive for personal excellence through the development and improvement of skills and personal style. The students will develop a sense of team work and be able to foster relationships that will last a lifetime. Through these relationships, students will grow by encouraging each other to achieve their personal best. We want our dancers to create memories here that surpass the number of trophies they have won. Teachers will be encouraged to further their education and skills by taking classes and attending workshops. It is the commitment of DelMonico Dance to operate with honesty and integrity; to build cohesive relationships as a dance family, and to offer quality instruction. Every child has a talent and must be allowed to explore this talent in his/her own time. It is our desire that every child will be shaped by dance in some way and share their passion with others in the classroom and through performance.
